Backgammon is one of the oldest known board games.

Its history can be traced back nearly 5,000 years to archeological discoveries in the Middle East.

It is a two-player game where each player has fifteen checkers which move between twenty-four points according to the roll of two dice.

Si on fait une erreur de frappe sur un mot lors de l'utilisation de la fonction de stemming (troncation) ou de lemmatisation (réduction à la forme de base), le résultat obtenu peut ne pas être celui que on attend.

Par exemple, dans le résultat du code ci-dessus, le mot "increible" (erreur de frappe pour "incredible"), le stemmer et le lemmatizer ne parviennent pas à corriger automatiquement l'erreur de frappe, et le mot erroné est renvoyé tel quel.

Le paramètre **\*pos\*** dans la fonction **\*lemmatize()\*** est utilisé pour spécifier la partie du discours du mot en entrée. Il indique au lemmatizer la catégorie grammaticale à laquelle le mot appartient, ce qui aide le lemmatizer à choisir la forme de base appropriée du mot dans le contexte donné. Dans ce cas, **\*pos = wordnet.VERB\*** indique le verbe.
